SAN FRANCISCO, 1863

July 1. 63.

Hon S. P. Chase.
Secretary of the Treasury.

Sir.

Enclosed please find a letter from Robt B. Swain Esq. Superintendent of the Branch Mint at San Francisco. Cal: informing me that he has, for the reasons stated in his communication, advanced the wages of seven persons employed in the Assay department, to Eight dollars per diem. I have deemed it proper under the circumstances to approve this action of the Superintendent, and authorize the advance to be extended, at his discretion, to other departments of that institution, as far as may be found necessary to carry on business properly. Enclosed I send a copy of my telegraph of to day, to the Superintendent, on this subject.

A reasonable advance in the rate of Wages at the Branch Mint appears to be the proper remedy to overcome

the difficulties arising from payment being made in Legal tender Notes. and I hope that the case pursued, will meet Your approval. Be pleased to let me have Your views on the subject, as early as convenient.

I have the honorable,
With great respect,
Your Obt. Servant,

Sir,

I am in receipt of your letter of the 9th ult. with the enclosure, with reference to the error in the report of "Silver deposited for fine bars" a corrected statement of which I forwarded to you, in my letter of the 26th ult. requesting you at the same time to withhold the requisition for the 3d Quarter of 1863 until a new one could be prepared. I beg leave to say that the deductions on the parting charge having passed into the Treasury of the U.S. the error cannot be corrected until the corresponding report for the month of June is prepared. I would therefore thank you to allow the requisition in question to take the usual course

Sir:

I have the honor to herewith enclose the requisition of Wm. Schmolz, Coiner of this Branch, dated July 13th 1863 with my approval.

I have also to inform you that I have ordered to be made for the Double Eagle Coining Press, a "lever" to take the place of the one now in use which has cracked, owing to a serious imperfection in the metal. I did this for the sake of expedition — to prevent any interuption in the operations of the Coiner, should an accident occur before the article could be replaced on an ordinary requisition from Philadelphia. The price — estimated at $400 or its equivalent — is not much, I believe, above the maximum cost in Philadelphia. The crack increases daily, and I fear may impede, if not totally stop, operations before the new lever is made, in spite of the temporary relief afforded by some repairs by our machinist.

Rec'd Aug 11th 1863

July 20th. 63.

Sir.

Your letter of the 15th. inst has been received, and the Superintendent at San Francisco, instructed according to Your directions in relation to the increase of Wages.

It seems proper for me to state that I enclosed to You on the 26th. ult. a communication from the Superintendent of the Branch Mint at San Francisco on the above subject and per- Your early instructions - On the 1st inst. I received a second communication from the Superintendent, and not having heard from my letter of 26th. ult. I considered, prompt action, called for by the situation of affairs at the Branch Mint. - hence my telegram.

The advance of Wages authorized by You will no doubt prove sufficient to relieve the embarrassment hitherto existing at the Branch Mint.

With great Respect,
Your Obt. Servant,
J. A. Pollock
Director.

Hon. S. Chase.
Secretary of the Treasury.

Treasury Department.

July 15, 1863

Sir,

I have received your communication of the 1st. inst., covering a letter from the Superintendent of the Branch Mint at San Francisco, dated June 6; and your telegraphic reply, authorizing an "increase of wages in Assay Department," and extending this increase at discretion to other Departments, as far as may be necessary for carrying on the public business properly. I request that, when applications of this character are made to you, you submit them, with your views, to me for consideration before taking action on them.

I have heretofore authorized an advance of Twenty-five per cent in the compensation of the employés in certain branches of the service on the Pacific coast; and now authorize you to make the same advance in the case of the employés of the Branch Mint at San Francisco.

You will, therefore, advise the Superintendent that the authority contained in your Telegram to advance the

compensation of his employés indefinitely is revoked, and that their compensation may be increased to such extent as he may think necessary not exceeding twenty-five per cent.

Yours very respectfully,

Secretary of the Treasury

Sir.

I am in receipt of your letter of the 11th ult.
Acting under the discretion conveyed in your Telegram
of the 2d. Inst. I have considered it necessary for
the interests of the Department to make a small
advance in the wages of several of the Employés of
this Branch - A few do not participate in the in-
crease because I did not think their circumstances
and position required it - In doing this I have exercised
my best judgement to preserve the efficiency of the
Branch - and have reserved to myself the right to re-
duce the standard, should Treasury Notes materially
appreciate - The increase is to the extent of 50 cents
to $1- a day, thus bringing wages to a point somewhat

below the figure in Treasury Notes. that was paid in Gold. before the reduction.

Dear James Pollock
Director of the Mint
Phila.a

Sir.

I have received your letter of the 8th inst.
The Mint is now being supplied with Acids. by
the San Francisco Chemical Works. conducted by
Dunn Shepard & Co. who have furnished this Branch
for several years at 11c. per pound for Nitric. and
3½c. per pound for Sulphuric Acid. payable in Gold
or its Equivalent — Prices vary therefore according
to the value of Gold. those for last month being 13½
and 4½c. respectively — Upon referring to the books of
my predecessor I find that as high as 19½ and 5½
have been paid. on account of the depreciated value
of Treasury Notes. as compared with Gold

No written contract now exists with these Gentle-
men — That under which the Mint was formerly

supplied & price more than one year since - The present arrangement made by my predecessor, is but temporary, although prices are unchanged, and it is evident that the Branch is somewhat at the mercy of the Contractors who are the only manufacturers of Acids on this Coast.

I have been intending for some time to make this matter, the subject of a special Communication to you - It is probable that these articles can be landed here from New York, at a cost much below that now paid - and I would suggest that you obtain information as to facilities for regular shipments from that Port, and the cost laid down in San Francisco.

If it be apparent that there would be some advantages in looking to your quarter for these articles, and that a sufficient supply could always be kept on hand to provide against the contingency of long passages and disasters, perhaps a permanent Contract could be made here upon more favorable terms - The verbal understanding

now is that the Chemical Works shall keep a reserve supply for about 6 months stored in some place remote from the manufactory so that in case of fire the operations of the mint would not be suspended — I have been careful that an examination at stated intervals has been made to see that the accumulated stock is equal to any emergency.

Sir.

So far as I am able to ascertain from the official records of this Department there exists no authoritative regulations with respect to the charges proper to be imposed upon a class of Gold bullion quite frequently received at this Institution, which clearly ought not to be subjected to the same scale of deductions as the ordinary Californian gold below 950 thousandths.

I refer to Foreign Coins alloyed chiefly with Copper.

These are divided into two general classes. those which are 900. and above, and those which are below 900.

In the first class Napoleons

Sovereigns. and Russian Coins are included.
In the second. Mexican ounces. South American
Coins and others which. while from mille 900
fine with no 898 and 898½ the 1/10th alloy being
nearly half silver. and half Copper. the latter metal
generally predominating.

The practice has been heretofore to
impose the full parting charge of 14c. pr. oz. and
separate the silver for the benefit of the de-
positor. entailing upon him. in such Cases an
expence greater than the value of the silver separated.

The latest reference to the general subject
of charges. of which this Department has any knowl-
edge. is contained in a letter from the Director
dated March 19th 1857. viz

"When gold and silver are mixed
in the bullion deposited. and it is not Coppery.
the following rates shall be charged for separating
the metal" Then follows the Tariff of charges now
in use at this Mint. upon gold bullion. from 1
to 950 thousandths fine - Nothing however is

said with reference to metal which is Copper or of the character under consideration

It seems to me that upon bullion of the first class. viz that which is gold and pure and alloyed with Copper (requiring to make it in legal proportions. sometimes no change. and sometimes. but the addition of a small amount of silver or copper alloy.) there should be no parting charge imposed. since there need be no parting operation performed.

Upon bullion of the 2d class. a refining charge upon so much of the deposit as is necessary to be refined. in order to bring the whole up to the standard. would seem to be a just and proper charge.

I have made a long statement. to the end that you may understand the case. and would be pleased to receive your explicit instructions upon the subject

Sir.

I have to acknowledge the receipt of Your letters of the 16th 18th & 21st inst. the latter covering Your Annual Estimates.

I will make enquiries as to the cost & of shipping Gold from New York to San Francisco, and advise You of the result. My impression, at present, is that the article cannot be shipped from the East on as favorable terms as You are now procuring it in Your City.

With regard to deposits for coinage, of foreign gold Coin, no charge is to be made, either for refining or parting. Even in the case of the old Columbian Doubloons, which are almost entirely alloy & the

Silver, there could not be a parting, under a charge of 1¼ cents per ounce, that would yield a return to the depositor; so that the Mint as a mere Coining establishment exacts from us no parting (for the assay) and no charge.

Estimates of Appropriation

Superintendent's Office,

Branch Mint of the United States,

San Francisco, Cala., Sept. 21st 1863

Hon James Pollock

Director of the Mint

Philadelphia

Sir.

I beg leave to enclose to you herewith the annual estimates of appropriation required of Congress for the support of this Branch during the fiscal year ending June 30th 1865.

The estimate is larger than usual for various reasons.

1st No unexpended balance of appropriation can be relied upon at the expiration of the fiscal year ending June 30th 1864

2d The business of the Branch is constantly increasing with the rapid development of the mineral resources of this Coast. and it is prudent to calculate that the receipts of Gold and Silver bullion for the year in

question will be largely in excess of those
of any former period.

31. By reason of the discrepancy in the value of
Gold, which is the currency of this State
and Treasury Notes, in which all Disbursements
-penses are paid, the amount required for
the wages of workmen, and Incidental and
Contingent Expenses, is necessarily larger than
it would be, if we had a uniform Currency.

Should the value of Treasury Notes, and
the value of Gold approximate more closely,
the wages of workmen, and the cost of Acids
and other materials may be Essentially reduced,
and some deduction possibly be made from
the amount of the estimated appropriation.

But in view of the expected increase
of business, the high cost of supplies, and
the certainty that there can remain no
unexpended balances of the appropriations
of the present year, it may be a question for
serious doubt, whether the estimates, as now

reported Com. with safety the rebuck.

Sir,

I send enclosed my Estimate of the Appropriations needed for the support of this Office for the Fiscal Year ending June 30, 1865.

The amount asked for Salaries exceeds by $1200 the appropriation of the last Congress, owing to a readjustment of the salaries of certain clerks authorized by the Secretary of the Treasury Sept. 23, 1863.

For Wages of Workmen, with an existing force of Laborers, Watchmen & Assistants, we require $4000 per month, - equal to $ 48,000.

Deducting a surplus of former appropriations, - which I estimate will exist on the 30 June, 1864, - of 13,000.

There remains to be asked for $ 35,000.

I estimate on Incidental & Contingent Expenses, Repairs &c. for the Fiscal Year ending

June 30, 1863 at ——— $60,000

I estimate that there will remain, at the close of the current Fiscal year, a surplus of former appropriations under this head of 40,000

Amt. required to be appropriated $20,000.

The appropriations thus required will be, thusfar:

For Salaries of Officers & Clerks $23,700.
" Wages of Workmen 35,000.
" Incidental & Contingent Exps. 20,000.

$78,700

Sir

Your letter of 20th Ult asking for an estimate of the expenses of this Branch Mint for the fiscal year ending June 30th 1865 was duly received; Herewith find estimates, rendered by the Officers for their respective Departments as follows viz, by O. D. Munson, Assayer.

For Salaries of Assayer Assistants & Laborer	$10,000
For Acids Charcoal, Lead, Cupels Glassware Repairs &c	2,000

by Fred Eckfeldt, Melter & Refiner

For Salaries of Melter & Refiner & Assistants	8,000
For Crucibles Fluxes, Acids, Fire-brick Mittens, Aprons, Repairs &c	4,000
Freight	2,000
Charcoal	1,400

We have not sufficient room in our present building for coinage purposes. I estimate the cost of an addition for that purpose at - 10,000

The following statement of the Melter & Refiner & Coiner, will show the articles necessary for their respective Branches. Preparatory to coining. The cost of

which can be better estimated at the principal Mint than here—

By Meller & Refiner
Melting furnaces, Granulating vessels and apparatus, Stone Jars for acids Acid Pitchers, Set of porcelain Jars for dissolving, Gold Syphon precipitating Vat— Lead lined reducing Vats, Drying furnace, Hydraulic Press, Fine Silver, Zinc Acids, &c &c— Ingot Moulds, Iron Ingot table, Ingot topping Machine Fixtures for annealing furnace Vault, Large Balance & Weights, He also estimates that an increase of at least Ten Laborers, will be required

By the Coiner
1 Engine & Boiler, Rolling Mills Topping Machine, Draw Bench, Cutting Presses Copper Annealing Canisters & pans, Fixtures fixtures for annealing furnaces, Complete Apparatus for cleaning polishing and annealing planchets, Milling Machine Coining Presses, Vault, Large Balance Adjusting Balances, all the necessary tools for setting up and keeping in repair the said Machinery—

Jas. Pollock
Director of the Mint

Sir.

On the 23d of June last I submitted to you a copy of letter which I addressed on the 19th June to the Secretary of the Treasury, in relation to the appropriation account.

I have received a reply thereto copy of which I enclose - After a long and patient investigation of the accounts of this Branch since 1859 I find that the Books herein correspond with those of the Treasury Department with the following exceptions

1st There was no record made by the former Treas. of this Branch of the draft of James H Walton then Treas. of the U. S Mint, dated July 5th 1859 for $13.000.-

In a letter from Jas Snowden of March 8th 1860 a statement of disbursements was enclosed, exhibiting

the manner in which the $13.000 was appropriated but no vouchers probably accompanied the same and no Entry was made thereof here - Will you be kind enough to send me a duplicate of the vouchers in question?

2d I cannot find among the records of this Branch any allusion whatever to the draft of May 20th 1860 for $5.000 - I would also thank you to inform me for what purpose the draft was drawn

3d The Treasury Department has charged this Branch with a draft for $5.435.85 purporting to have been remitted sometime in 1862 - Inasmuch as no such draft has ever been received, and no requisition made for any such sum, it is probable an Error has been made by the Department to which its attention will be called, when the requisition to meet the disbursements of the next quarter is forwarded.

In other respects, the Books of this Branch and the Books of the Treasury Dept which have so long heretofore failed to agree, thus misleading our

predecessor in making Estimates. now Corresponds. I will deny aim to avoid similar difficulties hereafter.

The Balance of $55.000 alluded to in my letter of June 19th. and claimed by my predecessor as due this Branch was relied upon by him in making his ~~estimate~~ estimate for the expenses of the past fiscal year - The simple truth is there was no balance, and no surplus as claimed, and Consequently there will be a deficiency of means for the support of this Branch - These facts should have been known by the former Superintendent, and the present embarrassments avoided - I find also that Estimates of Expenses have been based upon the amount of money paid out during periods when but a small amount of funds was in the hands of the Treas. instead of being based upon the actual amount of Contracts made - Upon assuming the duties of this office in May last I found a large amount of outstanding bills. some of them under Contracts many months previous - These I have been

liquidating as rapidly as the means of the Branch would allow.

I make this statement in justice to myself in part explanation of the probable deficiency to which I have alluded, and as a justification for the seemingly large estimate of expenses for the support of this Branch during the fiscal year ending June 30th. 1865.

The depreciated value of Treasury Notes in the market, is another cause of the present heavy expenses, and the high estimate referred to.

I would thank you to present these facts to the Department at Washington.

I am Sir.

Sir:

I acknowledge the reference of the Communication of Robert B. Swain Superintendent of the Branch Mint at San Francisco, relative to an alleged discrepancy between the Books of the Treasury Department and the books of the Branch Mint, of the appropriation for the support of that institution; with the request that a report be made thereon.

The letter of Mr Swain is accompanied by a detailed statement, in which he makes it appear that on the 1st day of July 1862, there remained to the credit of the appropriation the sum of $55.215.26

The books of this Office show that on that

Amount carried over $55.215.26

Amount brought over $ 55.215 26.

day, there remained to the credit of
the appropriation, only 31,359.69

Making a difference of 23,855.57

which is explained as follows:

On the 5th day of July 1859. a Warrant for $13.000, payable out of the appropriation for the Branch Mint at San Francisco, was issued in favor of James H. Walton (then) Treasurer U. S. Mint at Phila to enable him to make payments for articles purchased for said Branch Mint; the amount of said Warrant not being included in the Statement of Mr. Swain, 13,000,00

On the 26th day of May, 1860, a Warrant for $ 5,000, was issued in favor of Mr. Walton for a similar purpose as that mentioned above and which Mr. Swain does not include in his Statement. 5,000,00

In the Statement of profits deposited into the Treasury up to and including the fiscal year ending

Amt carried forward $ 18,000,00

Amount brought over $18,000.00

June 30th 1862 he includes the profits for the Month of June 1862, amounting to $8,979.34

The total Amount of profits received during the fiscal year is carried to the credit of the appropriation on the 30th day of June, of each fiscal year, and the return from the Branch Mint for the month of June 1862, not having been received until the commencement of another fiscal year is not included in the one ending 30th June 1862, 8,979.34

$26,979.34

From which deduct:

The Amount to the credit of the Appropriation on the 1st day of July 1859, and which Mr. Swain did not include in his Statement 3,123.77

Sir,

I have to acknowledge the receipt of your letters of the 15th ult.

I am pleased to learn that you have succeeded in making your account of appropriations, deductions & requisitions, correspond with the Books of the Treasury Department.

The official Bonds of Jos. H. Massey, (Clerk,) and Henry R. Laurence, (Assistant Assayer,) have been planned and transmitted to the Secretary of the Treasury.

The drafts in favor of D. N. Walker, former Treasurer of the Mint, to which you call my attention, viz: One dated July 5. 1859 for $13,000; and one dated May 20. 1860, for $10000; were issued upon the requisitions of my predecessor, Mr Thomas, and disbursed upon his warrants, in settlement of expenses incurred here in the purchase of articles for your

Branch at Dahlonega, as appears from the enclosed statement copied from the account Books in this Office, Mr Walton accounted for these funds direct to the Department at Washington.

The draft for $5,435.85 of which You make inquiry, was issued in favor of Archibald McIntyre, Treasurer of the Mint, on my requisition, to pay for a lot of Virgot Copper purchased and shipped to your Branch, per request of the Superintendent. When the Treasurers account for the same was transmitted to Washington, he was informed that this draft had been charged to the Treasurer of your Branch Mint. On the fact being stated in reply, that our Treasurer, had hitherto accounted direct to the Department, for funds advanced from your appropriations to make payment for Metals imported here, his account was passed & adjusted. I authorized that the proper entries, as the case then was, be made, to discharge the sum of $5,435.85 with which your Treasurer had been charged. The accounts for the three drafts in question, have therefore all been adjusted at the Department.

I cannot furnish You with the duplicate Vouchers for the items charged in

accounts referred to, because they have been
filed by the Treasurer for preservation, and
for reference if necessary. Copies of the same
will, however, be prepared and forwarded to You
as soon as convenient.

Hereafter, in all disbursements of this character,
I will cause Triplicate Bills to be taken, and
forwarded one of the same to You with the
Bill of Lading covering the items charged in the
Account.

If your means [illegible] meet the expenditures of the B. Mint, for the remainder
of the fiscal year, it may become necessary that
a Special appropriation from
Congress, at the approaching Session, to meet the
deficit. In this event You will please estimate
the amount, which in Your opinion will be required,
and restate the facts contained in Your letter
of the 4th ult., marked "Account"; as the grounds
for asking the same.

Should any explanation be called for by Congress,
for the increase in Your estimates for the next
fiscal year, the facts as stated by You will
be presented. It is proper to add, that in presenting
the Estimates to the Secretary of the Treasury, on the

2nd inst, I made the following reference to those
submitted by You: "For the Branch Mint,
San Francisco, an increase of $88,069. over
and above the appropriation of the current year,
is estimated. The letter from the Superintendent
of that institution, transmitted herewith, marked
B, presents the reasons for asking a larger
appropriation. In view of the facts stated
therein, I concur in the opinion expressed by the
Superintendent that the amount estimated for
cannot be safely reduced."

Secretary of the Treasury.
Sir.

I have recently purchased and shipped to the Branch Mint at San Francisco, per request of the Superintendent, a quantity of Black Lead Crucibles. Copies of the account for which has been passed to me for settlement. It is not this and other expenses which may hereafter be incurred for articles furnished for the Branch Mint, I beg to request that you will cause the sum of Two Thousand Five Hundred Dollars to be placed in the hands of the Treasurer of the Mint at Philadelphia to be disbursed by him on my warrants in payment of the expenses referred to. The amount to be charged to the appropriations for the support of that institution.

With great Respect,

Requisition for
$2.500
a/c R. Mint
San Francisco

Oct. 17, 1863

Treasury Department,
Comptroller's Office,
October 20th 1863.

Hon James Pollock,
Director U.S. Mint,
Philadelphia, Pa.

Sir:

In the month of July 1862, you addressed a communication to the Honble Secretary of the Treasury, requesting an advance of $5.435.85, from the appropriation for Contingent Expenses of the Branch Mint at San Francisco, for the payment of a supply of ingot copper for alloy, purchased by you, & shipped to said Branch Mint.

In the routine of business, the communication was referred to this office, for report upon the subject;- the advance was recommended, but the amount was directed to be charged to D.A. Cheesman, Esq., Treasurer of the Branch Mint at San Francisco, which was done when the Warrant issued, the proceeds however being remitted to you. It was designed that when you had paid the bill, it should have been trans-

mitted to Mr Cheesman, to form an item of credit in his accounts of Ordinary Expenses, inasmuch as he stands charged on the books of the Treasury with the amount of the Warrant.

In the settlement of the accounts of Mr Cheesman, it was found that he had not charged himself with the aforesaid amount, nor (as yet) credited himself with the amount of the bill for copper purchased.

I have, therefore to request that you will inform me if the bill in question has been sent to Mr Cheesman, if so, at what date.

Very Respectfully,
Yours &c
Wm Hemphill Jones.

Sir.

Your letter of Yesterday has been received.

Enclosed you will please find a copy of a letter of Archibald McIntyre, Treasurer of the Mint, dated 2nd. of August 1862, to the Secretary of the Treasury, also, a copy of the account therein referred to. These papers explain in detail the disposition made of the advance of $5,435.85 from the appropriation for Contingent Expenses of the Branch Mint, San Francisco, referred to in Your communication. It will be seen that the Treasurer of the Mint, Mr McIntyre, had received from Mr. D. N. Walton, his predecessor the sum of $99.15, being a balance of funds advanced from the Branch Mint appropriation, to pay expenses incurred here for that institution, and that this amount together with the sum of $5,435.85 above referred to, was applied to the payment of an

account of Nathan Trotter & Co. for copper shipped to the Branch Mint, amounting to $5,535.00.

If the account rendered by Mr. A. Butner, Treasurer of the Mint, on 30th of August 1862, and voucher transmitted therewith, is not conveniently at hand, the duplicate receipt taken at the same time will be furnished, which will, I suppose, be sufficient to discharge the two items with which the Treasurer of the Mint charged himself, although one of them, viz. the draft for $5,435.85, was charged to the U.S. Assistant Treasurer, Treasurer of the Branch Mint, San Francisco.

Very Respectfully,
Your obt. Servant
A. Pollock
Director

P.S. The draft for $5,435.85 was made payable to the order of Archibald A. Butner Treasurer of the Mint & sent to him and now comes as your voucher.

TREASURER'S OFFICE,

San Francisco, Oct 20th 1863

Sir

Enclosed herewith I have the honor to hand you the Duplicate certificate of the Assistant Treasurer of the United States at this place for Ten thousand seven hundred & ninety seven 79/100 dollars the amount of the Profits of this Branch for the month of September accruing as follows viz

For Deductions on Gold Deposits 10434.84

" " Silver Purchases 362.94

Transfered to the U S Treasury on Warrant of the Superintendent and in accordance with Section 16 page 9 of printed instructions

The original is reserved as a voucher to accompany the Quarterly Bullion Account.

The item of $65.35 Marked on Certificate, U.S. Notes is explained as follows.

The amount of the Assay Coins for the year 1862 having been placed to the credit of the Ordinary a/c of this Branch at Philadelphia, it became proper to restore the amount here from the Ordinary to the

over

Coinage &c which could only be done in U.S. Notes, the ordinary &c being supplied with funds by drafts on the Assistant Treasurer paid in U.S. Notes. These Notes being unavailable for payment of Bullion Deposits have been transfered to U.S. Treasury as so much of the Profits of this Branch for September.

I beg leave to enclose herewith a requisition from the Melter and Refiner of this Branch for articles needed in his Department, with my approval.

It is possible that occasionally some of the supplies which we have been accustomed to order from the East may be purchased upon more favorable terms here - and I would therefore suggest to you the propriety of stating the cost when you forward Bills of Lading.

Unless reasons are presented to the contrary it is my intention to close this Branch for the annual settlement on or about the

Sir

I have to acknowledge the receipt of your letters of the 10th & 12th ult. with the enclosures stated; also, a package per Express containing the Assay coins of your institution for the quarter ending 30th September last,— value stated at $9243.50

The last item,— viz. $5,435.85,— in your requisition No 2, was struck out and deducted, before the same was passed and transmitted to the Department, leaving the amount $78,085.65 instead of $83,521.50. As stated in my last letter the item referred to was received by the Treasurer of this Mint, and accounted for direct to the Department at Washington.

Enclosed you will please find the Bearer's account with your Treasurer to date, showing a balance of three cents, with vouchers & memoranda for the items charged therein.

Statement of Funds received and disbursements made by the Treasurer of the Mint, for account Branch Mint San Francisco.

In duplicate Vouchers for items charged in the Treasurers account. These Bills are sent for your information and not for account. The Treasurer will as heretofore, account for the funds in question, direct to the Treasury Department.

Bill of Lading for sixteen cases of sheet lead shipped to your institution on the 8th inst, per Ship "Eagle Wing".

Bill of Lading for chemicals shipped to you on the 9th inst, per Clipper "Hartshorn"

I notice the course taken by you in regard to your Assay coins, for 1862, to the former account. This was the most convenient plan, the proceeds of the Assay coins, having been, from time to time, exchanged with the Asst. Treasurer U. S. here, for U. S. Notes, to enable me to pay expenses incurred for articles sent to your Branch Mint.

Yours very Respectfully,

James Pollock
